[City, State, Zip Code]

Dear Hiring Manager,

I am writing to express my interest in the System Engineer position at Infosys, as advertised. With a Bachelor's degree in Computer Science and Engineering from C V Raman Global University and a strong foundation in programming languages such as Java, Python, and C, I am excited about the opportunity to contribute to your team while further developing my technical skills in a dynamic environment.

During my academic journey, I have developed a keen interest in software development and system integration. My recent projects, including a responsive Photo Gallery Web Application and a Currency Converter application, have equipped me with practical experience in developing, testing, and maintaining software applications. These projects not only honed my programming skills but also emphasized the importance of user-friendly design and performance optimization, aligning perfectly with the key responsibilities

outlined in the job description.

I am particularly drawn to the collaborative culture at Infosys, where teamwork and communication are valued. My experience working on group projects has strengthened my ability to collaborate effectively with peers, and I am eager to bring this skill to your team. Additionally, my certifications in Cybersecurity and Data Analytics demonstrate my commitment to continuous learning and adapting to new technologies, which I believe is essential in today's fast-paced IT landscape.

I am enthusiastic about the opportunity to participate in training programs at Infosys to enhance my technical expertise and contribute to real-world projects. I am confident that my analytical skills, problem-solving abilities, and passion for technology will make me a valuable addition to your team.

Thank you for considering my application. I look forward to the possibility of discussing how I can contribute to the innovative projects at Infosys. Please feel free to contact me at your convenience.

Warm regards,

Mangalakiran Prusty
